

CONCRETE ENCOUNTER

Fire Pot

Thank you for purchasing the Concrete Encounter Fire Pot for safe indoor enjoyment of the fire pit experience. This device is intended to be used in a safe and responsible manner in accordance to the following instructions and warnings, as well as your good judgement. Keep away from small children, keep unit within sight, and keep away from combustibles.

PROUDLY MADE IN THE USA

LIGHTING INSTRUCTIONS

1. Place fire pot on a flat, stable and level surface away from any combustible materials.
2. Pour up to 3 oz of 70% isopropyl rubbing alcohol or 91% isopropyl rubbing alcohol into the reservoir. **DO NOT OVERFILL.** The reservoir will be about halfway full.
3. Light the fuel with a long lighter.

EXTINGUISHING INSTRUCTIONS

1. Do NOT blow out the flame. Cover the flame with a non combustible flat object like a plate or pot cover to extinguish. Be sure flame is completely out.
2. If there is residual fuel in the reservoir, be sure to completely empty the unburned fuel before storage.

DISCLAIMER

The Concrete Encounter Fire Pot is intended for the safe use and proper care by the owner and its users. Discontinue use of any Fire pot that shows any sign of cracking or degradation. Failure to follow any of these guidelines set forth and any neglect or misuse of this product may result in serious personal or property damage and/or serious injury or death.

WARNING:

TO PREVENT FIRE OR SERIOUS INJURY

Use 70% isopropyl rubbing alcohol or 91% isopropyl rubbing alcohol. Do not use any solid fuel, gasoline, kerosene, propane, or any other combustible materials as fuel.

3oz of isopropyl rubbing alcohol will burn for approximately 30 minutes.

Never overfill the reservoir, capacity is 3oz (half full).

Do not refill when the fire pot is still burning or when it is still hot.

Do not use the fire pot for more than 90 minutes at a time without allowing it to cool completely.

Never dip anything in the fuel or touch the flame.

Never put anything in the flame.

Do not move the fire pot when lit and keep it on a stable, horizontal surface.

Keep at least 24" side clearance and 48" overhead clearance to any combustible materials.

If the concrete shows any signs of damage, discontinue use immediately.

Never leave a lit fire pot unattended and parental supervision required.

Use a long lighter to ignite.

If all of the fuel does not burn, always empty the unlit remaining fuel from the reservoir before storage.

Wait at least 30 minutes after flame is extinguished before storage to allow unit to cool.

To extinguish the flame, cover with a flat non-flammable object like a plate or pot cover. Never blow out the flame.

WARNING: TO PREVENT FIRE AND SERIOUS INJURY

Burn fire pot within sight. Keep away from drafts and vibrations. Keep out of reach of children and pets. Never burn on or near anything that can catch fire. Follow the guidelines set above.
